

Who Needs a Measles Vaccine?

1. Were you born before 1957?

Yes = no vaccine needed

2. Born between 1957 and 1967 and have documentation that live version of MMR vaccine received? (If an inactivated version of vaccine was received or documentation is unclear/unavailable; answer no to this question.)

Yes = no vaccine needed

No = get one dose of MMR and continue to question 4

3. Born after 1968 and received recommended childhood immunizations as scheduled?

Yes = no vaccine needed

No or unknown = get one dose of MMR and continue to question 4

4. For those who qualify for first dose, will a 2nd dose be needed in 28+ days?

- a. Am I an international traveler?
- b. Am I a health care worker?
- c. Do I have frequent exposure to children?
- d. Do I live with unvaccinated people who are unable to be vaccinated?

Yes (to any) = receive 2nd dose at least 28 days following first dose

No (to all) = no 2nd dose is needed
